

## Scrum #6 Meeting Notes

1. What have you accomplished since the last meeting?
2. Are there any obstacles in the way of meeting your goal?
3. What will you accomplish before the next meeting?

	Question 1	Question 2	Question 3
Alex	Worked on fixing the UI and adding a variety of different tests and bug fixes for it.	No	Sprint 2 planning
Connor	Wrote a servlet to get search history for users through Javascript functions. Frontend and backend functionality was implemented for search history.	No	Sprint 2 planning and review
Emily	Created search history servlet with Javascript functions that can connect frontend with backend.	No	Sprint 2 planning and review
Julia	Mostly finished the UI for the pages. There are some small changes left to make to the recipe, results, and restaurant pages. The major change left is for the list management but any changes that had been made to the results page will be reused. There are a few small things to fix and it shall all be done.	No	As of sprint 2 planning and the review, we should finished working on all the UI and just to check ensure that all tests are running correctly. Also finish the documentation and make sure that everything is set up to be turned in.
Will	Styled the list item cards on the results page.	No.	Continue fixing styling issues on the results page, list management page, and restaurant page.
