

Scrum #6 Meeting Notes

1. What have you accomplished since the last meeting?
2. Are there any obstacles in the way of meeting your goal?
3. What will you accomplish before the next meeting?

	Question 1	Question 2	Question 3
Alex	Finished the grocery list page and pagination.	No	Refactoring and documentation.
Connor	List reordering, image links for search history, connected front-end and backend	No	List persistence, refactor, and bug fix
Emily	List reordering, image links for search history, connected front-end and backend	No	List persistence, refactor, and bug fix.
Julia	Finished the frontend for Grocery list, pagination attempts and the new quick access list Fixed a lot of errors from the front end in terms of responsiveness	No	Make sure that all integrations work and meet with Connor to create the attack plan for the review Help with refactoring
Will	Worked on implementing and testing the front-end for the Grocery List	No	Help with refactoring and making sure all of our code is integrated.
