

## Scrum #2 Meeting Notes

1. What have you accomplished since the last meeting?
2. Are there any obstacles in the way of meeting your goal?
3. What will you accomplish before the next meeting?

|        | Question 1   | Question 2 | Question 3  |
|--------|--|------------|---|
| Alex   | Did all of the Travis CI integration, including writing scripts to set up the server, set up the database, and deploy the code to the server. Travis CI is now set up to run the JUnit and Cucumber tests in parallel as well. Also worked on the radius fixes and grocery list. | No         | Research pagination for the frontend.   |
| Connor | Nothing - Did not have the opportunity to pair program with anyone since the last scrum.   | No         | Grocery list backend  |
| Emily  | Nothing - was organizing and managing AthenaHacks the entire weekend.  | No         | Research some HTTPS stuff.  |
| Julia  | Finished fixing the tests for the list management page<br>- Wrote beginning cucumber tests for grocery list implementation<br>- Added the html and css for the grocery list implementation<br>- Fixed styling on login and list management<br>-                                  | No         | Update pagination to reflect feedback<br><br>Work on integrating and creating Grocery List UI |
| Will   | Configured my version of the project to work with Alex's   | No         | Update pagination to reflect feedback from Sprint 1.  |
