

Scrum #4 Meeting Notes

1. What have you accomplished since the last meeting?
2. Are there any obstacles in the way of meeting your goal?
3. What will you accomplish before the next meeting?

	Question 1	Question 2	Question 3
Alex	Worked on trying to get Travis with https	Https works locally but not on Travis	Fix Travis
Connor	Grocery List Database functions + tests. Some research on https.	Https? Seems to make Travis break	Re-ordering lists database. User lists persistence.
Emily	Grocery List database functions + tests	No	Create a way to handle “reordering lists” requirement, and user lists persistence.
Julia	Nothing	I wasn’t able to find time to meet with Will or anyone else because they were already pair programming	Finish writing the Grocery List UI and integration Fix the indentation of the ingredients to instructions on the recipe page
Will	N/A	N/A	N/A
